

Choose the Right Seal for Your Spa or Swimming Pool

There **ARE** Different Seals for Different Applications

Be Sure to Ask about our Value Guard Line

Great Products at Great Prices

STOP

Stop Using the WRONG SEAL

STOP

Premium Seals

Buna/Graphitic Plastic -

These seals are the industry standard for general pool applications, and include our PS-100, 200, 201, 501, 601, 1000 and 2131...

These seals are NOT RECOMMENDED for spas, ozonators or chlorine generators using salt...

Buna/Carbon Seals

Buna/Carbon Graphite -

These seals are recommended for spa applications...

They have sintered carbon, which provides better resistance to abrasion, heat and chemicals.

These seals include our PS-952, 961, 3890, 3960, 3985, 4265, 4266, 4267, 4274 and 4275.

Ozone/Salt Service Seals

Viton®/Carbon Graphite -

Great for applications involving ozonators or chlorine generators using salt.

These applications require tough seals... Request our PS-3864, 3865, 3866, 3867, 3868, 3869, 3870, 3874, 3986 and 4280.

Viton® is a registered trademark of DuPont Performance Elastomers, LLC.

Other Products and Publications...

Bearings

We have bearings for your Pool & Spa applications...

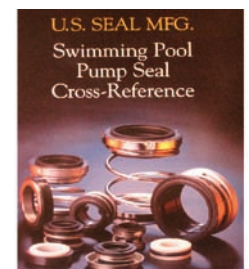

Capacitors

U.S. Seal Mfg. stocks many popular capacitors to meet your requirements...

Swimming Pool Pump Seal Cross-Reference Guide

Call for your free copies...

If your seals look like either of these, you have a problem... Ask us how to fix this.

STOP

Stop Using the WRONG LUBRICANT

STOP

Our U.S. SEALUBE is a water based formula specifically designed to lubricate rubber, making the installation of mechanical seals fast and easy.

It provides a high degree of lubricity to all rubber components.

It maintains its wetness for a short period of time. But unlike PTFE or silicone based lubricants which

penetrate the elastomer and never allow the elastomer to grip the shaft or bore, U.S. SEALUBE evaporates.

Once the evaporation takes place, the component is dry to the touch. The lubricity is gone and will not return, even in the presence of moisture.

Your seal is now locked in place.

Install mechanical seals like a Pro.

Use only U.S. SEALUBE.
